---

The following report summarizes the relief actions of Buddhist Tzu Chi Foundation (BTCF) in response to coronavirus disease 2019 (COVID-19) in the African Region including Zimbabwe, South Africa, Eswatini, and Sierra Leone.

Since the first case of COVID-19 in African region (reported in Algeria on February 25), there are now more than 50 countries in Africa that are affected with a total number of 31,460 cumulative cases and 1,106 reported deaths as of May 4. Since its first confirmed case on March 7, South Africa became the most affected country in African region with 7,220 cases, followed by Algeria with 4,648 cases, and Nigeria with 2,802 cases, as of May 4.

With its continuous and active presence in the African region since 1992, BTCF is able to deliver its aid to those who are in need in a timely manner. BTCF also continuously raises awareness and provides trustworthy information related to the COVID-19 prevention such as good hygiene practices and other preventive measures to the communities that it services.

### **South Africa, Eswatini, Zimbabwe**

As of May 4, there are 7,220, 116, and 34 confirmed cases in South Africa, Eswatini, and Zimbabwe, respectively. On March 11, March 23, and April 1, BTCF donated a total number of 16,000 surgical masks to South Africa, Eswatini, and Zimbabwe, respectively, to fulfil the urgent needs of protection of the essential workers including police officers and healthcare workers.

### **Sierra Leone**

As of May 4, 178 cases have been accumulated in Sierra Leone with 9 deaths reported and 37 recoveries. On April 24, in collaboration with Caritas Freetown, Healey International Relief Foundation, and Lanyi Foundation, BTCF donated 8,000 bags of rice (10kg/bag), or 800 tons, to the Ministry of Basic and Secondary School Education of Sierra Leone in support of the School Feeding Program which aims to enhance the enrollment of students through the provision of free meals. However, due to the COVID-19 situation in Sierra Leone which has led to the country lockdown, the rice is distributed to the students directly as take home ration. The rice is distributed to 8,000 students across the country including Bombali, Karene, Kambia, Kono, Kailahun, and Kenema.
